FROM THE CWHP BLOG

The Power of Integration for SAW/RTW

Administration, and the Social Security Administration to support the implementation and evaluation of early intervention strategies designed to improve stay-at-work and return-to-work (SAW/RTW) outcomes.

Dr. Kimberly Jinnett has been asked to participate as a subject matter expert in the RETAIN initiative - Retaining Employment and Talent after Injury/Illness Network. With a series of webinars, podcasts and blogposts, Dr. Jinnett is providing expertise, tools and advisory around cross-sector integration, resource mapping and evidence-based learning communities.

More information about the initiative is available [here](#).

For information on CWHP's technical assistance offerings please contact kjinnett@tcwhp.org.

The RETAIN initiative was developed by the U.S. Department of Labor's Office of Disability Employment Policy (ODEP), the Employment and Training

Workforce Health and Performance — Bright Ideas Survey

Take the survey here: <https://www.surveymonkey.com/r/TWLW87T>

The Center for Workforce Health and Performance wants your Bright Ideas. We will feature these ideas, select guest bloggers, delve deeply on topics and inform research and practice by spreading these Bright Ideas.

For our first Bright Ideas survey we would like to know your thoughts on the best ways to support workforce health and performance.

Our challenge — can you do it in 20 words or less?

The Center for Workforce Health and Performance (CWHP) is a clearinghouse for information that may be used to support evidence-based policies and practices for a healthier, happier and high-performing workforce, a healthier economy and, in turn, healthier and more productive communities. CWHP develops knowledge around workforce health and performance improvement and disseminates it widely through scientific and educational forums.
