Cancer and Work-related Outcomes

WORK-RELATED OUTCOMES AMONG EMPLOYEES WITH CANCER

Implications For Employers, Providers and Data Scientists

Employers, providers and data scientists can all support the inclusion of the right data, resources and treatment to affect longer, healthier and more fulfilling working lives for employees with cancer.

Report by Dr. Kimberly Jinnett

Check-out our latest report, “Work-related Outcomes Among Employees with Cancer: Implications for Employers, Providers and Data Scientists”. This report presents a selected summary of recent research on the importance of stay at work and return to work outcomes for workers with cancer as well as a descriptive analysis of short-term work disability experience across six types of cancer for a multi-employer population of workers.

Workforce Health and Performance — Bright Ideas Survey

Take the survey here: <https://www.surveymonkey.com/r/TWLW87T>

The Center for Workforce Health and Performance wants your Bright Ideas. We will feature these ideas, select guest bloggers, delve deeply on topics and inform research and practice by spreading these Bright Ideas.

For our first Bright Ideas survey we would like to know your thoughts on the best ways to support workforce health and performance.

Our challenge — can you do it in 20 words or less?

The Center for Workforce Health and Performance (CWHP) is a clearinghouse for information that may be used to support evidence-based policies and practices for a healthier, happier and high-performing workforce, a healthier economy and, in turn, healthier and more productive communities. CWHP develops knowledge around workforce health and performance improvement and disseminates it widely through scientific and educational forums.
