FROM THE CWHP BLOG

Dr. Debra Lerner Joins CWHP Board

The Program on Health, Work and Productivity located in Tufts Medical Center, which she established and currently directs, is a center for research and development staffed by a multi-disciplinary team of experts. Her research projects combine expertise in clinical and population-based research.

[Check-out Dr. Debra Lerner's latest work on the High Cost of Mental Disorders: Facts for Employers.](#)

Dr. Lerner's research addresses the science and practice of employee health improvement with an emphasis on sustaining ability to function at work.

Workforce Health and Performance — Bright Ideas Survey

Take the survey here: <https://www.surveymonkey.com/r/TWLW87T>

The Center for Workforce Health and Performance wants your Bright Ideas. We will feature these ideas, select guest bloggers, delve deeply on topics and inform research and practice by spreading these Bright Ideas.

For our first Bright Ideas survey we would like to know your thoughts on the best ways to support workforce health and performance.

Our challenge — can you do it in 20 words or less?

The Center for Workforce Health and Performance (CWHP) is a clearinghouse for information that may be used to support evidence-based policies and practices for a healthier, happier and high-performing workforce, a healthier economy and, in turn, healthier and more productive communities. CWHP develops knowledge around workforce health and performance improvement and disseminates it widely through scientific and educational forums.
